OP and FJ reported on the pre-application and many questions were asked by the Councillors and representatives of the Village Hall committee and School Governing Body.

RESOLVED: to reply to the pre planning application stating that the Councillors still had many questions to be answered and were awaiting more information on subjects brought up in the meeting held on 29th January with Oli Powell of Farm Biomethane and Fraser Jones of Lower Leighton Farn, including reports that were currently being written according to Mr Powell. The time given on the pre application was far too short to compile any detailed questions at this time, as the paperwork was only received in the New Year from the Clerk to Trewern Community Council, where it had been sent by mistake. This delay, together with the Christmas/New Year holidays, has only given three weeks response time, with the Councillors only able to meet on the 29th January to discuss the proposal. The Councillors look forward to much more detail in the planning application which they will be able to respond to accordingly. The Councillors would like to know how the local community of Leighton will directly gain from this venture when mains gas isn't available in the village. They would also like to visit a local site of similar size and also a site (if different) currently owned and run by Farm Biomethane. They also request that any reports/information relevant to the pre application is forwarded to the Clerk upon receipt.
